SUMMARY

Ex-Software Engineer turned Product Manager with 9+ years of experience driving **AI/ML-powered products, scaling cross-functional teams, and embedding product operating model practices** (OKRs, governance, prioritization frameworks). Proven record in **mentoring PMs/engineers, influencing executive stakeholders, and delivering measurable impact** — including 20% revenue contribution, 43% cloud cost savings, and AI-enabled adoption across 100K+ institutional users.

Blended expertise in **Software Engineering** and Product Management, skilled in building & scaling **AI/ML-driven products** across **FinTech, Cloud AI, and Enterprise** domains.

EXPERIENCE

LONDON STOCK EXCHANGE GROUP | Product Manager (AI/Data)

2023 – Present

- **AI Product Strategy:** Defined and executed a roadmap for AI-powered surveillance features, improving anomalous trade detection accuracy by 35%.
- **Generative AI Innovation:** Built a multi-agent Insider Trading Alert Assistant (news sensitivity, trader activity, trend plots, multilingual FX support).
- **Predictive Cloud Efficiency:** Launched forecasting dashboards, reducing AWS spend by 42% (~\$198K annual savings).
- **Executive Leadership:** Scaled Hyderabad AI/TPM org by 15+ hires and directly managed 4 PMs (20+ person team including ML Engineers/Data Scientists responsible for Products, Platforms, Core, and Enterprise; set OKRs, coached team members, and influenced 20% of company revenue within 9 months).
- **Product Operating Model:** Instituted **OKR-driven planning, roadmap cadences, and stakeholder councils**, improving delivery predictability by 20% and aligning AI strategy with business objectives.

CAPGEMINI (EUROCLEAR) | Product Manager I

2022 – 2023

- Delivered AI-enhanced transaction tools, boosting operational efficiency by 32%.
- Conducted 20+ user interviews, VOC analysis → informed design of anomaly detection flows.
- Designed Figma prototypes for AI-UX, enhancing experience for 1.5M+ users.
- **Cross-Functional Leadership:** Directed a **17-member team (DS, Eng, Ops)**; coached engineers and analysts on agile execution and prioritization on shipping 45+ features/releases.
- **Operating Model Adoption:** Embedded **prioritization frameworks and sprint rituals** across squads, improving throughput by 45% and alignment across compliance and engineering stakeholders.

CAPGEMINI (HSBC) | Associate PM

2020 – 2022

- Partnered with ML engineers to build fraud-risk dashboards, reducing incident resolution time by 20%.
- Automated workflows with Jira/Confluence, increasing feature delivery by 37%.
- **Stakeholder Leadership:** Acted as a bridge between compliance leaders, global executives, and 4 engineering teams; presented adoption metrics to HSBC senior leadership.
- **Product Operating Model:** Instituted backlog refinement practices and executive governance reviews to improve transparency in AI/ML feature delivery.
- Presented product outcomes to **executive steering committees**, influencing roadmap direction.

- Designed and developed **multi-tenant SaaS apps** that supported 1M+ users, embedding ML optimizations (forecasting, workload balancing).
 - Built a **global Azure distribution platform** for Microsoft product lines (OEM/FPP) → automated provisioning for thousands of partners.
 - Partnered with **PMs in Redmond** to prioritize feature sets and release planning, gaining exposure to product decision-making.
 - Coordinated with **support & sales teams** in 3 regions to gather feedback → incorporated into technical requirements.
 - Contributed to the adoption of **Azure ML services**, experimented with predictive analytics, and provided feedback that informed the roadmap.
-

EDUCATION

- **B.E. in Electronics & Telecommunications Engineering** from Sathyabama University, Chennai, India with 8.38/10 GPA in 2016
-

SKILLS

AI/ML: Generative AI, LLMs, Transformers, RAG, NLP, Deep Learning, Amazon Bedrock, SageMaker, Anthropic Claude Sonnet 4, Opus 4, GPT-4.1 / GPT-4.1-mini, Python

Cloud/Data: AWS, Azure, Snowflake, Databricks, SQL, Tableau, Power BI

Product & Leadership: AI/ML Roadmaps, Product Strategy, AI UX, A/B Testing, Metrics (Precision/Recall, Adoption, Retention), **Product Operating Model (OKRs, governance, prioritization)**, **Executive Stakeholder Management**, **Team Building & Mentorship**, **Cross-Functional Leadership**

Tools: Figma, JIRA, Confluence, Datadog, MLflow, Power BI, Tableau
